

## DSOTO Experiential Training Center

### **Why Experiential Training?**

Team Expansion's DSOTO Experiential Training Center serves as a unique outdoor classroom, designed to create a fundamental force for positive change within your team. For organizations seeking to go to the next level, it's a must!

### **How will I benefit?**

Your organization will grow in many areas including:

- Mission & Vision Clarity
- Leadership Development
- Communication
- Teambuilding
- Creativity, Innovation & Idea Discovery
- Conflict Management & Resolution
- Problem Solving Skills

### **How does it work?**

We initially conduct a thorough analysis to best understand the heart of your company: Your vision, goals, and your people. This may also include a simple and powerful survey (PREP® Personal Assessment Tool) for each participant. Often, this information is used in building your customized training program. Then, working together with you, we generate a concrete proposal designed just for your organization. A wide variety of tools are available, including indoor classroom style and outdoor experiential training. The outdoor facilities include a low ropes course and a variety of additional ground-level initiatives. Finally, we do it, together!

### **Where is it located?**

Emerald Hills, our professionally designed retreat and training center, is located in Louisville, KY, just outside the Gene Snyder Freeway off of Taylorsville Road. This beautiful 60 acre site includes trails, a conference center, and dining facilities. In-house programs can also be conducted at your facility instead.

### **How many people can I bring?**

We have found that the optimum size to maximize the learning environment is 10 to 30 people.

### **What dates are available?**

The site operates year-round, weather permitting. We book the facility on a first-come, first served basis. Indoor sessions can also be arranged during the Winter months.

### **What is the investment?**

Customized packages are developed to meet your individual needs. Typical programs run from 1 to 2 days. Packages which include meals are also available.

### **What is the next step?**
